

3RD ANNUAL INTERNATIONAL RAW MILK SYMPOSIUM

PRODUCER - CONSUMER - CHOICE

BLOOMINGTON, MN | MAY 7, 2011 | 8:30 AM - 4:30 PM
WWW.RAWMILKSYMPOSIUM.ORG

Minnesota was specifically chosen for this year's symposium. As **CONSUMERS**, Minnesotans have shown increased interest in raw milk and raw milk products AND are shedding their roles as traditional **CONSUMERS** by creating partnerships with their **PRODUCERS**. By accepting responsibility in their food **CHOICES**, Minnesotans are blazing the trail into what will be the next phase of the local food movement in this country, that local **CONSUMERS** will partner with food **PRODUCERS** — our farmers — in order to ensure we have a **CHOICE** in bringing home the food and milk that we want and require for our health.

Please join us for a day where we'll learn not only about the natural health benefits of Raw Milk but about the critical relationship between **PRODUCERS**, **CONSUMERS**, and **CHOICE**.

Sponsored by:

Farm-to-Consumer Foundation®
